

Creating a Snowflake Trial Account

Introduction

Snowflake is a leading cloud-based data platform, offering powerful data warehousing, analytics, and secure business solutions. This guide provides clear, step-by-step instructions to create a trial account for the **Business-Critical** Edition of Snowflake, specifically hosted on the AWS London (eu-west-2) region. The process is designed for business professionals seeking a secure, high-performance environment to evaluate Snowflake's premium features.

Step 1: Visit the Snowflake Website

Go to the official Snowflake website at <https://signup.snowflake.com/> This page is dedicated to new user registrations and trial account sign-ups

Step 2: Start the Sign-Up Process

A screenshot of the Snowflake sign-up form. The form is titled "Create a Snowflake account" with a progress indicator "1 / 2". It includes a link "Already have an account? Sign in". The form fields are: "First name" (USER), "Last name" (A), "Work email" (datakumo3@gmail.com), and "Why are you signing up?" (Personal learning and development). There is a checkbox for "I want to opt out of Snowflake emails about products, services, and events." and a "Continue" button at the bottom. A disclaimer states: "By clicking the button below you understand that Snowflake will process your personal information in accordance with its Privacy Notice".

Create a Snowflake account 1 / 2
