

SNOWFLAKE WAREHOUSE ONBOARDING AND GOVERNANCE MANUAL FOR COST MONITORING AND CONTROL FOR STARONE.COM

Scope: Enabling end users to create and onboard snowflake warehouses through a controlled configuration, sizing and naming standards.

Which Warehouse Types Are Permitted in Snowflake by Platform team?

- Only Standard warehouses are permitted for now.

What is Snowflake Default Role Assignment to warehouse?

All Snowflake warehouses must be assigned the SYSADMIN role.

What are the Snowflake Standard Approved SQLs to be used for Snowflake warehouse creation?

If the snowflake warehouse is for POC , Proof of concept , evaluation of platform, we need to control the configuration by allowing standard warehouse types only and only xsmall size to be allowed with scaling policy as standard. The sql should be as below:

```
CREATE OR REPLACE WAREHOUSE POC_<warehousename>
```

```
WAREHOUSE_TYPE = STANDARD
```

```
WAREHOUSE_SIZE = XSMALL
```

```
GENERATION = '1'
```

```
SCALING_POLICY = STANDARD;
```

```
GRANT USAGE ON WAREHOUSE POC_<warehousename> TO ROLE SYSADMIN ;
```

If the snowflake warehouse is for UAT OR TESTING in general , we need to control the configuration by allowing standard warehouse types only and only xsmall size to be allowed with scaling policy as standard. The sql should be as below:

```
CREATE OR REPLACE WAREHOUSE UAT_<warehousename>
```

```
WAREHOUSE_TYPE = STANDARD
```

WAREHOUSE_SIZE = XSMALL

GENERATION = '1'

SCALING_POLICY = STANDARD;

GRANT USAGE ON WAREHOUSE UAT_<warehousename> TO ROLE SYSADMIN ;

If the snowflake warehouse is for production environment, we need to control the configuration by allowing standard warehouse types only and only xsmall size to be allowed with scaling policy as standard. The sql should be as below:

CREATE OR REPLACE WAREHOUSE PROD_<warehousename>

WAREHOUSE_TYPE = STANDARD

WAREHOUSE_SIZE = XSMALL

GENERATION = '1'

SCALING_POLICY = STANDARD;

GRANT USAGE ON WAREHOUSE PROD_<warehousename> TO ROLE SYSADMIN ;

Please ensure the prefix is always attached to the warehouse name as applicable to the environment.

Snowflake Warehouse Onboarding Process FAQs

- Requests submitted via internal access management system with mandatory approvals.
- Warehouse creation performed only by Snowflake Platform Engineering.
